

"Our Business."

How is it that when we treat persons with kindness and generosity, they are apt to become our most dangerous enemies. It seems as if our prosperity engenders a feeling of secret hatred, which is bound up in the black heart of man until it cannot longer be concealed even by the soft, serpent-like exterior put on by our secret enemies.

We admire a bold out spoken enemy even if he does not always keep the truth on his side; but these *swindling* moving, soft-speeched groveling animals of the earth, these hypocrites who dare not look you in the face; these we are ready to wage a war with, although we see the unequal contest will be carried on by men of which our Saviour says:—

"Ye hypocrites, well did Jesus prophecy of you, saying this people draweth nigh unto me with their mouth and honoreth me with their lips; but their heart is far from me."—MATT. 23, 8, 9.

It seems that an attempt has been made by certain parties not only to injure our fair character but to misrepresent our business prospects. If the source from which this *black-eyed slander* comes were known it is probable that it would be taken for what it is worth, but these mischievous birds of scandal carion, are very careful to lodge in the dark and *chuckle over the working* of their evil deeds.

We are satisfied that in this new undertaking of ours we have the good will and kind sympathy of all the most respectable and public spirited of our citizens.

We do not take hold of it as a temporary affair, but as the business of a *life time* and the unequalled success which we have already met with satisfies us that we have friends in all parties, warm and earnest ones, who throw aside their petty party feelings, and come to our support to enable us to make a good daily paper in this community, one that shall be independent in all sectional strifes, one whose motto shall be:—

"BE JUST AND FEAR NOT, LET ALL THE ENDS THOU AIMEST AT BE THY COUNTRY'S, THY GOD'S AND TRUTH'S."

But to come to the point. On Saturday night our office was entered by some one and a part of the form, which had been corrected and set up for Monday's use was altered so as to make it appear that we had allowed our proof to contain the most outrageous blunders and gross mistakes, but fortunately the alterations were discovered and our paper got out Monday morning with few typographical errors; although we are ashamed to say that it contained more than usual. Thwarted in this scheme our treacherous enemies undertook a bolder stroke, knowing that our paper could not be kept up to the standard at which our ambition aspires without much night work in the office, the next dodge was to dissatisfy our office hands so as to dishearten us out in the onset, by which means they hoped, knowing us to be young and supposing we would be easily discouraged to disarrange our plans, and thus force us to our own ruin.

But this last would never have been attempted had they known the *stuff* which they had to deal with. We have one trait in it good or bad, an unconquerable obstinacy in all opposition, and we will assure our readers that we are determined to furnish them with a paper, which shall be reasonably creditable to ourselves, favorable to the progress of our native city, and instructive to our readers. This is our determination, and no secret contrivance, or open opposition shall change it. We can and will make a paper worthy of support, and it shall be our unceasing endeavor to further the interests of our city—and the Southern part of the State, upon which we shall chiefly rely for support.

To Advertisers.

We wish to call the attention of all persons doing business in the city, to the importance and advantages of advertising in our columns. The *NEWPORT DAILY NEWS* has a large city circulation, and is the cheapest medium of advertising, as its circulation daily brings notices before the public six times during the week—a matter of no little consequence to persons desirous of doing a quick cash business. To use a Yankee expression, it keeps incessantly hammering its contents into the heads of its readers; and their heads must be thick indeed if it fails to hammer something out of them, and their pockets also. Those who have articles of country consumption, will find the *WEEKLY JOURNAL* all that they could ask of in this line; its circulation is large, and mostly in the country, especially in the southern districts of the State. It is needless for us to expatiate on the advantages of advertising, most business men are fully aware of them, and they are proved from the fact that less business is always the reward of those who do not use this medium of bringing their goods before the public.

Successful business men are always found to be almost prodigal in these expenses, and the reward is proved by their continued success. Send in your advertisements then, while there is still a chance to reap your reward.

We have a few words to say in regard to our *Job Printing Establishment*. It has never been in so good order as at present, and we take pleasure in informing the pub-

lic that our stock of presses, type, &c., is now probably the best in the city, and we are willing to do Job Work for our former customers, and the public generally, at the lowest cash prices.

Our terms for work of this character is invariably Cash, when the orders are fulfilled. We are prepared to print *Large Posters, Programmes for Lectures, Concerts, &c., Bill Heads, Bank Checks, Druggists' Labels, Circulars, Business Cards*, and every description of *PLAIN and ORNAMENTAL PRINTING*. Also printing in colors beautifully executed.

Court of Justices.

TUESDAY, April 28, 1857.

State vs. Wm. Slaven of the "Break of Day House." Violation of Liquor Law.—Guilty. Sentenced to pay twenty dollars fine and costs, and to ten days imprisonment. Appealed and was committed to Jail for want of Sureties.

State vs. Wm. Shoven. Keeping gambling house, called the "Break of Day House."—Probably guilty. Required to find sureties in the sum of one hundred dollars for his appearance at Court of Common Pleas, May Term, A. D., 1857.

State vs. DANIEL BROWN, for passing counterfeit money. Continued for advisement.

Adjourned to Friday next.

Some one of our solicitous friends, alarmed by an out spoken testimony in favor of Freedom, and anticipating the juicy times which will precede the election of our next President has sent us a pictorial caution, with this caption,

"The Editor of the Daily News with his necessary furniture in 1860." It consists of a fine likeness of himself, penning at his desk a savage article against the Pro-Slavery candidate for the Presidency; between our teeth (where we usually wear a fragrant Havana) is a monstrous "Cleaver,"—in front of us a dagger, on the table by us a Colt's revolver, while a sword, a six pounder cannon, a "Burn side Rifle" a shillalah, and a brick are close at hand to be used, if needed,—we are made to look pretty for midable, but a vacant space behind us, with an open door is very suggestive of a "Brook's" and his gutta percha! We thank our friend for this timely warning but it is not needed. We are, and mean to be, so gentle, so measured in our terms, so Catholic in our liberality, so conciliating in our deportment, so cautious and mild in our chiding for political offences, calling Border Ruffianism, by the sweet sounding old name of "Democracy"—attributing to error what we know to be downright reality, and calling office-seeking bustle, activity in the welfare of one's country, that the rankest ruffian's heart will be touched with tender mercy, and our person go unscathed in "the wreck of matter, and the crash of words." (Speaking politically).—The "Union" may pass away. The "Constitution" may dissolve like a vapor. The "Eternal Democracy" may vanish like burning grass, but the sweet tempered amiability of ourself will not fail to protect us in that hour of universal desolation.

We hope our pugnacious friend will rest satisfied with this explanation.

We are glad to observe that mine host of the Aquidneck House, has removed the fence from the Hall on Mill St. in order to widen the Street. It is a movement in the right direction. We trust the Congressional will follow next, and take away the unsightly slat fence from the Pelham St. side of their magnificent Church. A good generous side walk is all important, and the gain in appearance will more than compensate for the loss of a few feet of land, which it costs more to fence, than it is worth.

At the 117th annual meeting of the Artillery Company of the City of Newport, held at their Armory, last evening, the following officers were unanimously elected for the ensuing year:

Thomas B. Carr, Colonel.
Charles W. Turner, Lt. Colonel.
Isaac S. Boas, Major.
Charles C. Clarke, Captain.
John B. Langley, Jr., Quarter Master.
Henry E. Turner, Sergeant.
George W. Tew, 1st Sergeant.
Augustus P. Sherman, 2d Sergeant.
Perry B. Dawley, 3d Sergeant.
Henry C. Manchester, 4th Sergeant.
Benjamin L. Slocum, 5th Sergeant.

SHARP PRACTICE.—An exhorter in a Methodist Church, in Brooklyn, during prayer meeting, carries a pack of cards in his pocket—his own business cards—and when penitents come forward to the anxious seats, he writes a scripture text upon each oblong strip of pasteboard, and offers them to the convicted sinners for special contemplation. This kills two birds with one stone—advertises his business and comforts the souls of the contrite; and the good brother finds religious matters to pay extremely well. The exchange in which we find this, says that he keeps a very large grocery store, and finds this sort of advertising equal, as far as it extends, to any newspaper or circular. The good brother has waxed rich through this means, and we suggest to any enterprising sympathizers, that they might follow his example with advantage.

CHORISTER.—The significance of the word "chorister" may be somewhat obscure to those accustomed to the use of the word as designating a leader of a choir. From the first introduction of the choral service in England, the title of "chorister" has ever been applied to the boysingers in cathedrals, and to no other persons. The older singers (tenors and basses) are called "singing men" or "vicars choral" and the chief of them all is the precentor. At Durham Cathedral, (the richest endowed in England,) the chorister boys number about fourteen. Their salaries amount to \$1,500 per annum in the aggregate.—*Ex.*

GENERAL NEWS.

STILL MORE IN REGARD TO THAT "DEMOCRATIC VICTORY."

Letter from the New Mayor of Newport. NEWPORT, April 27, 1857.
To the Editor of the Journal:
The result of the recent Mayoralty election in this city, has called forth playful remarks from yourself and other journalists in regard to my political position. Several weeks previous to the regular municipal election on the 16th inst., I was earnestly importuned to be a candidate for Mayor, by men of all parties, but positively declined; notwithstanding this, a number of votes were given for me. There was no election, and renewed efforts were made to induce me to be a candidate; some of these were of a personal nature, which it is not necessary to mention, especially out of this community; some of the applicants were from men whom I could not fairly refuse, and I therefore reluctantly consented to the use of my name.

It is well known to you and others, that I have always been an old-line Whig,—and I have never yet seen cause to change my sentiments. In the late Presidential election, I earnestly supported Mr. Fillmore, and sincerely regret that he was not again placed in that high office, the duties of which he discharged with so much honor and dignity. I am yet so peculiar in my views, if you please so to say, as to believe that the principles and policy of the old Whig party form the real foundation upon which the Republic rests, and that they will again be advocated and sustained with renewed vigor and efficiency, and that our great and growing country will be vastly benefited thereby. I am very confident that you then, as formerly, will be in the front ranks of the party, doing valiant service in the good cause of conservatism.

Yours very truly,
W. H. CRANSTON.
The Providence Journal publishes the above letter from Wm. H. Cranston, Esq., and makes the following comments upon it. Our Democratic friends who have been rejoicing over "the great triumph of the Democracy" in the election of an old fashioned Whig to the Mayoralty of Newport, are affectionately referred to the letter of Col. Cranston in this day's paper.

Fossil Literature.
We would suggest that the letter of our good friend Cranston, which we copy to-day, be framed and presented to the Antiquarian Society, to be filed away with "Evidences of Creation" The old Red Sandstone "Fossil Remains." The "Skelton in Armor" The "Testimony of the Rock" and "Overing on stolen Treasures." The Col. is full of faith in the Resurrection of the Whig party, and though he would not become gratified that ourselves to see the old corpse again clothed with physical attributes, yet our faith fails us, and we sadly record our belief, that the party, which so long acted as the balance wheel of the confederacy has with an "old line" about its neck, gone to that land—
"Where sorrow is unknown"

"The Niagara"
The new steam Frigate "Niagara" left New York, on her trial trip to London on Wednesday. She is the largest war vessel in the world and probably the most powerful. Her speed is great, as she made eleven knots against a four knot breeze, under steam, on her way out. It will be recollected that she is under orders to lay the great oceanic telegraph cable, and in consequence of being engaged in that business she has only 550 instead of 800 men, her proper complement. She is 345 feet long, and is 6,500 tons measurement, she carries when armed eleven Dahlgren guns carrying shots of 130 pounds weight. The guns weigh 14 tons each, and carry with certainty four miles. John Bull will open his eyes at this specimen of Brother Jonathan's Steam naval power.

THE LAST WAY OF MAKING MONEY IN PARIS, is said to be by means of a female profession unknown to us—that of "sweeper," or police of vigilance to look after husbands while away from home. The best known of this profession is a respectable widow lady of about forty years of age, who goes by the name of Madame Vidocq. She resides in the Rue Montmartre, second story, front; and for a regular price, she gives in each morning, a report of the doings and whereabouts of any gentleman, something in the following style:—"Monsieur X. went out at noon. He walked to the Rue Pigalle, No. —. He made a call on Mlle R. —, and passed there three quarters of an hour. Thence he went to the Opera house and engaged a box for the evening. He went to the Bouffe at 1 o'clock, but did not remain. At 3 1-2 he mounted his horse and rode to the Bois de Boulogne. In passing along the Boulevards he left his ticket at No. —, and returned to dine at 5. At 10 he went to the Opera, where he met Mlle S. —. At midnight he supped with her at the maison dore and at 2 he returned home." The price of this little bulletin (daily) is only twenty francs. As soon as the ladies of New York are willing to learn the luxuries of such a four dollars worth, we shall have a new field for female industry.

SPIRITUALISM.—A young lady confined to her bed by sickness, heard strange raps upon a table near her, and though a disbeliever in spiritualism, had the curiosity to ask if the raps were made by the spirit of a departed sister?—The table rocked in response. "Now," said the lady, "if that is really the spirit of my departed sister, I wish it would remove the lamp from the table to the mantel piece." And forthwith the lamp appeared to sail through the room and finally to rest upon the place desired. These proceedings alarmed the nurse, who forthwith rose and walked towards the door; but was restrained by an invisible power which lifted her bodily and carried her to a chair beside the bed. She fainted; the window was thrown open, and water was sprinkled over her face until she revived. Feeling very nervous, she took hold of the bell to ring for a servant, but her arm was seized and the bell pull taken out of her hand. Frightened almost out of her senses, she requested the sick lady for God's sake to speak to the spirits to let her alone. "Will the spirit of my sister," said the lady, "let Mrs. — leave the room?" Again the table rocked several times to an *afro*, and taking this for an affirmative answer, the nurse rose and was permitted to depart. Without giving any explanation, she left the house immediately, and no entreaty could induce her to return. We received this statement from the nurse herself.—*Atlas.*

NEWPORT DAILY NEWS.
TWO WEEKS LATER
FROM CALIFORNIA.
ARRIVAL OF THE EMPIRE CITY
AT NEW ORLEANS.
LATER FROM NICARAGUA.

RETURN OF COL. LOCKBRIDGE
AND HIS MEN AT N. ORLEANS.

NEW ORLEANS, April 27.
The Empire City has arrived with California dates to the 6th.

Ex-Senator Foote has returned to the ranks of the Democratic party.

The Pacific Mail Express Company have failed.

The Empire City brings 100 of Col. Lockbridge's men. 70 other filibusters, including Generals Jorncy and Wheat, took passage at Aspinwall in the Illinois, for N. Y. Others remained awaiting a passage home.

Col. Lockbridge's retreat is confirmed. The Costa Ricans have taken possession of Punta Arenas, and the steamer Rescue, with ammunition and six pieces of artillery.

Col. Lockbridge's men were taken to Aspinwall by British vessels.

Private dispatches received here from Aspinwall, state that his position at Rivas is impregnable, and that he was likely to hold out for months.

These same dispatches confirm the previous reports of a battle between his forces and the Allies at San Jorge, and state that another attack was expected about the 20th of April.

The Transit route is open to the Pacific.

FROM HAVANA.

CHARLESTON, April 28. Steamer Isabel, from Havana and Key West April 14, arrived last night.

There was an active demand for sugar at Havana, at 12 1-4 a 13c for Muscovados.—Molasses—Clayed 9 1-2; Muscovado 10 1-2 a 11 cents.

ANOTHER FILIBUSTER MOVEMENT.

NEW YORK, April 28. The Herald states that a new filibustering movement is on foot in this city, and that a small vessel has been chartered by some friends of Santa Anna, and is about to be sent off for Tampico, or some place in that vicinity, with 2000 or 3000 muskets, a lot of cartridges, and a few men.

NEW YORK BANK STATEMENT.

NEW YORK, April 27. The weekly bank statement foots up as follows: Loans, \$113,391,000; specie, \$11,828,000; circulation, \$8,736,000; deposits, \$95,238,000; being a decrease in loans of \$1,600,000; specie, \$238,000; circulation, \$34,000; deposits, \$1,202,000.

THE PERILS OF THE SEA.—The official list of wrecks for 1856, as just published in Great Britain, exhibits a fearful amount of disaster. We learn that no less than 1166 ships were wrecked, or met with casualties, on or near the coast of the United Kingdom. The burthen of these ships amounted in the aggregate to 229,936 tons, and the number of hands employed to 10,010. The largest number of casualties occurred in January, February, November and December. Of these ships, 884 were British, registered at home. 32 British registered in the colonies, and 237 foreigners. 546 were sailing ships over sea, 434 coasters, 189 colliers and 34 steamships. 506 wrecks, &c., occurred on the east coast, 307 on the west coast, 119 on the south coast, 155 on the Irish coast, 12 off the Sicily Isles, 11 off Lunby Island, 6 off the Isle of Man, and 38 off the northern Isles. 261 of the ships were commanded by masters holding certificates of competency, 290 by masters holding certificates of service, 297 by masters of coasters, 95 by persons whose qualifications are unknown, and 210 by foreigners.

The reader may well imagine the terrible amount of suffering. In some places entire crews perished, and in others but few were saved. Among the causes 148 are attributed to stress of weather, 10 to mistaking lights, 37 to unseaworthiness, 38 to fog, 3 to defective charts, 12 to errors in judgment, 3 to ignorance of coast, 7 to errors of pilot, 3 to want of pilot, 21 to neglect of lead, 11 to want of caution, and 8 to general negligence.

REAL ESTATE SALE IN WARREN.—The property fronting on Main street, owned by George Cole, Esq., and occupied by him until lately for hotel purposes, was sold to Capt. John G. Joyce and others, on Wednesday last for \$10,000. The quantity of land is a little more than 2 1-4 acres, and upon it are several buildings. One of them was occupied as a hotel by Mr. Cole's ancestor nearly a hundred years ago, as the old sign bears witness, and continued to be the pleasant home of the traveler, with one of the Cole family as "mine host" until Mr. Cole discontinued the business, a few months ago.

It is not unlikely that in its new hands this estate will be again devoted to the same purpose, in which case the new wants to which a new age has given birth will doubtless receive liberal attention. This is the most important movement in real estate which has taken place in Warren for a long time, comprising, as it does, a large area in the heart of the town.—*Warren Telegraph.*

LORD NAPIER ON 'CHANGE.—The merchants of New York, had an opportunity of making the acquaintance of Lord Napier, who visited the Exchange in company with Mr. Duncan, of Duncan, Sherman & Co.—The attendance was unusually large, and there were more representatives of the solid business men of the city than can be collected except upon an extraordinary occasion. But one opinion was expressed as to the bearing of the representative of the nation to which we are allied by so many ties, and he received a welcome which must convince him of the cordiality of the merchants of New York towards him personally.—*N. Y. Express.*

OBSCENE TESTIMONY.—Yesterday, in the House, an order was adopted for the committee on the Judiciary, to consider the expediency of prohibiting the publication of evidence in cases of adultery, rape, &c.—*Lowell Jour. & Cour.*

FREEDOM OF THE PRESS.—Dr. R. W. Gibbes, editor of the Columbia South Carolinian, having been turned out of a public meeting which he intended to report, brought suit against the Mayor of Columbia, who authorized the act, and has recovered damages. The amount of the damages has been expended in procuring a handsome tablet, on which is an appropriate memorial inscription.

ANOTHER TRIUMPH OF THE DEFENCE SALAMANDER SAFES!!!
New York, Nov. 4th, 1856.

Mr. ROBT. M. PATRICK, 192 Pearl St., has been robbed of about eighteen months' worth, in his house at Newport, R. I., which, with the furniture, was entirely destroyed by fire on the night of the 5th June last. The safe, after being exposed to an intense heat for many hours, was recovered on the 10th of June. Not having the necessary tools at hand to open it, the same has stood just as when recovered, until shipped to your address, Nov. 1st. When opened at your store this morning, I was agreeably surprised, as were so others present, to find the contents, consisting of valuable silver plate, &c., in a perfect order as when placed therein. It is with pleasure I add my testimony to the merits of the Safes of your manufacture. Yours, Respectfully,
DANIEL PARKER.

SALES OF ALL SIZES, Plain Chests for Private Families, &c., always on hand, for sale and made to order, at the Depot, 192 PEARL STREET, one door below Maiden Lane, and at the Manufactory, Nos. 60, 62, 64 and 66 Canal Street, New York.

A CARD TO THE LADIES.

DR. DUNCAN'S GOLDEN PERIODICAL PILLS for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting, regulating, and removing all obstructions from whatever cause.
All medical men know, as well as many others, that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many calamities among young females, that I have been induced to publish the following testimonials. Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive. Price \$1.00 per box. For sale by HAZARD & CASWELL, 12 Washington Square, and 137 Thomas St. They will supply the trade at wholesale prices. Ladies, by enclosing \$1.00 to STURGIS & CO., Box 24 Newport Post Office, can have the Pills sent (confidentially) by mail to any part of the city or country. 12-ly

PERRY DAVIS' VEGETABLE PAIN KILLER. Still Triumphant—and, after a thorough trial by unimpeachable witnesses, it has proved itself to be The Medicine of the Age.

Although there have been many medicinal preparations before the public since the first introduction of Perry Davis' Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world, as the best Family Medicine ever introduced. The genuine Perry Davis' Pain Killer is now put up in panel bottles, with the words PERRY DAVIS' PAIN KILLER blown in the glass; and with two steel engraved labels on each bottle—one an excellent likeness of Perry Davis, the original inventor of the medicine, the other a steel engraved note of hand—none others can be relied upon as genuine. Price of bottles, 12 1-2 cents, 50c., 50c., &c., respectively.

PERRY DAVIS' SON, Proprietors.
No 74 HENDERSON ST., Providence, R. I.

One word in regard to Perry Davis' Pain Killer. I have used that in my family for some two years, and take great pleasure in recommending it as a valuable medicine, that should be kept in every family. I have witnessed wonderful speedy cures by its use—recently, within the last week, I have known a very severe case of rheumatism soon relieved and promising a speedy cure, by this in my estimation, invaluable remedy.

A. A. HAYES, M. D. STATE Assayer of Massachusetts, says: "I have subjected to chemical analysis, the Cod Liver Oil prepared by HAZARD & CASWELL, of Newport, R. I. It proves to contain unaltered the iodine compounds essential to efficacy of action, and in comparison with the finest specimens I have seen of foreign or domestic origin, it takes the highest place. The importance of having a reliable source, from which this valuable remedy in a state of purity can be obtained, leads me to recommend with confidence, this excellent article." As a remedy for consumption, bronchitis, female debility, asthma, gout, rheumatism, sciatica, eruptions, neuralgia, infantile wasting, emaciation, &c.—it has no equal. It ought to be used freely as an element of nutrition in any case where there is decay, however slight, of the constitution. It will restore feeble children to robust health, and is the most valuable nutritive agent known. We guarantee every bottle bearing our signature to be perfectly pure and reliable. Address orders for the trade to the manufacturers.

MISCELLANEOUS. The Greatest Discovery of the Age. PROFESSOR WOOD offers for sale a perfect HAIR RESTORATIVE. It is a short time restore the hair, which has become gray prematurely, (to its original color)—bring it out where it is gone, and arrest when it is falling out—cleanse the head of dandruff and itching—remove all cutaneous eruptions, and render the scalp perfectly healthy, restoring the secretory organs to their original vigor and strength, and thus supply nutriment and coloring matter to the roots. It does not dye the hair, but is, in short, a perfect Hair Invigorator and Tonic. To the young, who so much admire the beautiful locks and ringlet, he feels that he will be pardoned if he offers the advice suggested by long study and extensive observation. It is to disperse all cologne and stimulating oils for the hair, and keep always on the toilet a bottle of the Restorative for occasional use, and we can safely predict, that henceforth all ver locks will be upon bald heads. Let the dark eye be ever so piercing, and the teeth be those of pearl—still, if the natural fluids be withheld from the hair, and in consequence becomes first dead and harsh, then gray, or falls out of nature will be robbed of more than half its charms; as it is a sovereign remedy for those who are gray as well as those who are bald, and who feel the propriety of making only such application to the hair and scalp as is calculated to preserve both in a healthy state. From the editor of the Real Estate Advertiser No. 2 School Street.

Boston, March 20, 1855. Prof. Wood—Dear Sir—Having become prematurely quite gray, I was induced some 6 weeks since, to make a trial of your Hair Restorative. I have used less than two bottles, but the gray hairs have disappeared; and although my hair has not fully attained its original color, yet the change is gradually going on, and I have great hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which, before was harsh and dry, and it has ceased to come out as formerly.

Respectfully yours, D. C. M. RUPP. Milford, Worcester Co., Mass., Nov. 13th, 1855.

Prof. O. J. Wood—Dear Sir—I take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative. As far back as 1856 my hair commenced falling out until the top of my scalp became bald and for a year and a half, it continued to fall off at the rate of one inch a week, notwithstanding I have used many celebrated preparations for its restoration. Seeing your advertisement I was induced to give your article a trial, and to my utter astonishment I found after a few applications that my hair became firmly set and lustrous by very glossy and beautiful appearance; and at the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches in length, and growing very fast.

Yours truly, HENRY GOODRICH. Carlyle, N. H., June 27, 1856.

I have used Prof. O. J. Wood's Hair Restorative, and as I thought permanently gray, but by the use of his Restorative, it has resumed its original color, and I have no doubt permanently so.

THE GREATEST WONDER OF THE AGE.

A REMEDY which CURES IN FIVE MINUTES.—M. LEROUX'S French Choloric Cognac Bitters. This truly wonderful choloric compound is recommended by the most eminent and learned physicians of all Europe and America, and enjoys the best of success in anything similar ever effected. It is without doubt, the most efficient and generally acknowledged remedy against cholera, dysentery, diarrhoea, and complaints of the stomach in general. The numerous patients who have tried it according to directions have invariably found relief in a very short time, and the best proof of it is, that since this standard remedy was introduced in the armies

the Allies in the Crimea, the mortality of the soldiers from cholera and similar diseases was diminished by over 75 per cent.; in consideration of which, the inventor was presented by the French and English governments with a gold medal, bearing the inscription, "Hail! M. Leroux, the great chemist and inventor, by whose knowledge our armies are preserved from cholera."

This invaluable preparation is also a remedy for billiousness, indigestion, weakness, and general derangement of the stomach. Upon being taken, it creates appetite, and prevents the heaviness attendant upon eating by persons who are dyspeptic.

In this city, also this remedy has been tried with the most undoubted success, and the un-

ernigned can produce the best testimonials of our most celebrated physicians, as to its immediate and complete success, which he will be happy at any time to show to any that may wish to see them.
